SKILLS

- **Languages:** Java, Python, C++, C, JavaScript
- **Frameworks:** HTML and CSS
- **Tools/Platforms:** MySQL
- **Cloud Services:** Google Cloud, AWS
- **Operating System:** Linux, Windows
- **Soft Skills:** Communication, Adaptability, Team Work, Problem-Solving

WORK EXPERIENCE

- **WowwDecors&Events:** Oct 2025 - Nov 2025
Freelance Web-Developer
Developed a fully responsive and interactive website with my team for a US-based event management startup to showcase services, previous work and manage bookings. Implemented dynamic galleries, event booking form and client testimonials to enhance user experience. Designed intuitive navigation and a modern, visually appealing layout to reflect the brand's creativity and professionalism. Ensured cross-browser compatibility and mobile responsiveness.
Tech: HTML, TailwindCSS, JavaScript, JQuery

PROJECTS

- **Personal Portfolio Website:** Sep 2025 – Sep 2025
Developed a responsive and visually appealing portfolio website to showcase projects, skills, achievements and resume. Integrated intuitive navigation, smooth scrolling and organized sections for projects, skills and contact information. Focused on modern layouts, clean design and accessibility to provide an engaging and professional user experience.
Tech: HTML, TailwindCSS
- **Event Reminder System – Java Console Based:** Jun 2025-Jul 2025
Developed a console-based program to schedule and manage events with customizable reminders. Implemented options to add, update, delete, list and view events while ensuring proper date and time validation. Designed a structured menu-driven interface for smooth user interaction and utilized file handling to maintain data across sessions.
Tech: Java (OOP, File Handling, Exception Handling, Date & Time API)
- **Social Good Tracker – AI-Integrated Social Impact Platform** Mar 2025-Apr 2025
Built Social Good Tracker, a web application that allows users to log, track, and explore social good initiatives. Developed features for contributing to and discovering programs, with real-time statistics for impact tracking. Integrated Google's Gemini API to power an AI chatbot that provides personalized guidance on social impact activities. Designed a fully responsive, modern UI with smooth animations and community story-sharing functionality for user engagement.
Tech: HTML, CSS, Javascript, Gemini API (chatbot)
- **MovieMate – Online Movie Ticket Booking Website:** Nov 2023-Dec 2023
Built MovieMate, a modern web application for browsing movies, selecting showtimes, and booking tickets online. Designed an intuitive interface using HTML, CSS, and JavaScript, ensuring a smooth seat selection and booking experience. Focused on responsive design for seamless usability across devices and implemented dynamic interactivity for a real-world feel.
Tech: HTML, CSS, JavaScript

CERTIFICATES

- Certified in Java with OOPS by CipherSchools Jun 2025-Jul 2025
- Mastering in C: Basic to Beyond by CSEPathshala Feb 2023-Mar 2025
