SKILLS

- **Languages:** Java, C++, JavaScript, Bash, Shell Scripting.
- **Frameworks:** HTML and CSS
- **Tools/Platforms:** MySQL
- **Cloud Services:** AWS, Apache, Google Cloud.
- **Operating System:** Linux(RedHat, Ubuntu), Windows.
- **Soft Skills:** Problem-Solving , Team Player, Project Management, Adaptability

TRAINING

- **InternsVeda Edutech Pvt. Ltd.:** Dec 2024 - Jan 2025
Cloud Computing Intern & Trainee
Completed a combined training and internship program in cloud computing, gaining hands-on experience with virtualization, infrastructure, and deployment. Collaborated on real-world cloud projects, optimizing performance, scalability, and security using industry best practices.
Skills Acquired: Cloud Computing, Virtualization, Infrastructure Management, Deployment, Security

WORK EXPERIENCE

- **TheMudrak - Sustainable and Eco-Friendly Printing & Packaging Store Website:** Jan 2025 - Mar 2025
Freelance Web-Developer
Developed a responsive website for *TheMudrak*, a sustainable and environment-friendly printing and packaging brand. Designed the front-end using HTML, CSS, and JavaScript, and implemented dynamic features using WordPress for ease of content management. Created an intuitive UI/UX to showcase eco-friendly products, enhancing user engagement. Ensured complete mobile responsiveness and fast loading times.
Tech: HTML, CSS, JavaScript, WordPress.
Website: <https://themudrak.com/>
- **WowwDecors & Events:** Oct 2025 - Nov 2025
Freelance Web-Developer
Collaborated with a team to design and develop a fully responsive and interactive website for a US-based event management startup. The website was built to showcase services, highlight previous projects, and handle client bookings efficiently. Implemented dynamic image galleries, an event booking form, and client testimonial sections to improve user engagement. Created a clean, modern, and intuitive interface that reflects the brand's creativity and professionalism, while ensuring full cross-browser compatibility and seamless performance across all devices.
Tech: HTML, Tailwind CSS, JavaScript, jQuery.

PROJECTS

- **SkillSeed:** Nov 2024– Dec 2024
Developed **SkillSeed**, an educational and skill-focused web platform designed to provide users with access to structured courses and learning content. Built a clean, modern, and responsive user interface that allows learners to easily explore different skill categories, navigate courses, and interact with the site's features. Integrated AI-enhanced elements (such as chat assistance or intelligent content hints) to elevate the learning experience and support user engagement. The project is fully open-source and showcases practical implementation of web development fundamentals along with polished design and client-facing UI features.
Tech: HTML, CSS, JavaScript.
- **KisanSathi - Farmer Query Support Platform:** Mar 2025 - Mar 2025
Developed *KisanSathi*, a web platform for farmers to post their agricultural queries and connect with expert teams for problem resolution.
Built the front-end using HTML, CSS, and JavaScript ensuring accessibility for all age groups.
Integrated forms for posting queries and a secure contact mechanism to reach experts.
Focused on mobile-first responsive design for better usability in rural areas.
Tech: HTML, CSS, JavaScript.
- **Directory Management System - Smart File Organization and Duplicate Finder:** Apr 2025 - Apr 2025
Built a GUI-based Directory Management System using Python and Tkinter.
Automatically categorizes files into folders based on file types (Images, Documents, Videos, etc.).
Implements duplicate file detection using MD5 hashing and provides options to organize, preview, and undo file operations.
Built a user-friendly interface with progress bars and scanning previews for large directories.
Tech: Python, Tkinter, OS Module, Hashlib, Magic (MIME Type Detection), Multithreading.
- **FitLife Planner Pro - AI-Integrated Fitness Planner Website:** Apr 2025 - Apr 2025
Built *FitLife Planner Pro*, a fitness planning website featuring an AI-powered chatbot assistant.
Developed a full planner system for workouts, meals, and progress tracking using HTML, CSS, and JavaScript.
Integrated Google's Gemini API for the chatbot to answer fitness-related queries dynamically.
Designed a clean, mobile-responsive dashboard UI and animated chat interactions for better engagement.
Tech: HTML, CSS, JavaScript, Gemini API (Chatbot), Netlify Deployment.

- **Smart Portfolio:**

Created and deployed a modern, fully responsive personal portfolio website to showcase my skills, projects, and professional information. The site features clean navigation, visually engaging layout, and sections that highlight my technical expertise and project work. Integrated AI-assisted enhancements using **Gemini AI** to improve content presentation and user engagement. Hosted the live site on Netlify and published the source code publicly on GitHub, demonstrating my ability to build, document, and maintain a real-world web application.
Tech: HTML, CSS, JavaScript/TypeScript, Tailwind CSS, AI-assisted content (Gemini AI).
Website: <https://shashanksmartportfolio.netlify.app/>

Jul 2025 - Jul 2025
- **TechConnect3003:**

Designed and developed a full-stack web application using the **MERN stack (MongoDB, Express.js, React.js, Node.js)** to connect users on a unified platform for technical interaction and collaboration. Built a modern, responsive frontend with React and implemented a robust backend with Node.js and Express for handling APIs, authentication, and data management. Integrated MongoDB for efficient storage and retrieval of user and application data. The project focuses on performance, scalability, and a smooth user experience, demonstrating strong full-stack development skills and real-world application architecture.
Tech: MongoDB, Express.js, React.js, Node.js, JavaScript, REST APIs, Authentication, Responsive UI.

Jul 2025 – Aug 2025

CERTIFICATES

- Internship and Training in Cloud Computing with InternsVeda

Nov 2024-Jan 2025
- Certified in MERN Stack Development from CipherSchools

Jun 2025-Jul 2025

ACHIEVEMENTS

- **LeetCode 100 Days Badge:**

Completed the 100 Days of LeetCode challenge, demonstrating persistence and consistent practice in data structures and algorithms.

Jan 2025
- **Extracurricular Involvement and Leadership Roles:**

- Dehradun Science Exhibition Winner:
Won 1st prize in city-level science exhibition held in Dehradun.
 - President – Club Palo Alto – The Tall Tree:
Organized and led several college events as the club president, demonstrating strong leadership and event management.

EDUCATION

- **Lovely Professional University**

Bachelor of Technology - Computer Science and Engineering CGPA:7.52

Phagwara, Punjab
Oct 2023 – May 2027
- **Shivalik Academy**
